

CIRCLE, CIRCLES, VESICA JUXTAPOSING

We can represent the dynamics of reality and its appearance through geometric relations. Several AD diagrams are juxtaposing or folding or nesting any of these circles into another in different relationships. Often one diagram is an unfolding of a previous or one mandala will act as a kind of microscope, zooming in to show detail of some aspect or level of a previous.

The symbol of the vesica really comes from one circle intersecting itself.

CIRCLE, TRIANGLE, SQUARE

-- sacred symbol for Reality of Sengai.

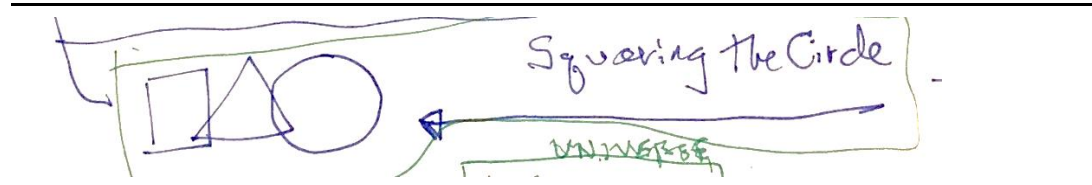

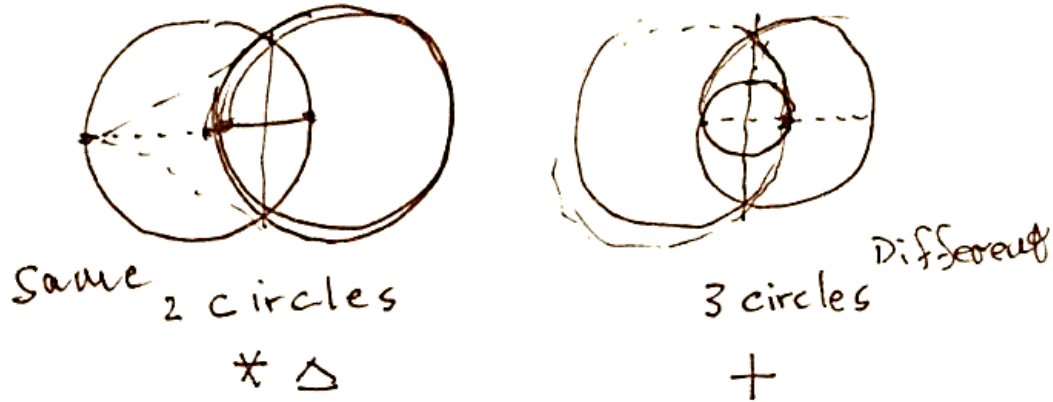

Squaring the Circle: read it right to left!

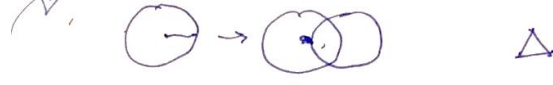

Cosmic: squaring the Circle: Circle, Triangle, Square

Circle → radiating circle → two circles → triangle Vesica Aspect

Line diameter → Two circles with endpoints → Square Vesica Aspect

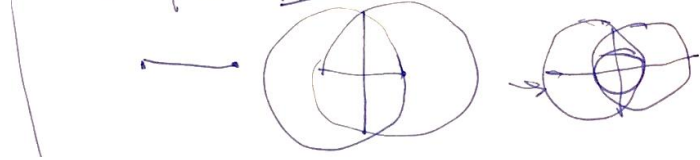

Two Circles - or one "radiates"

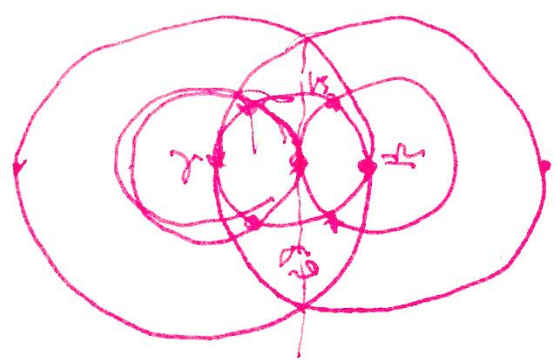

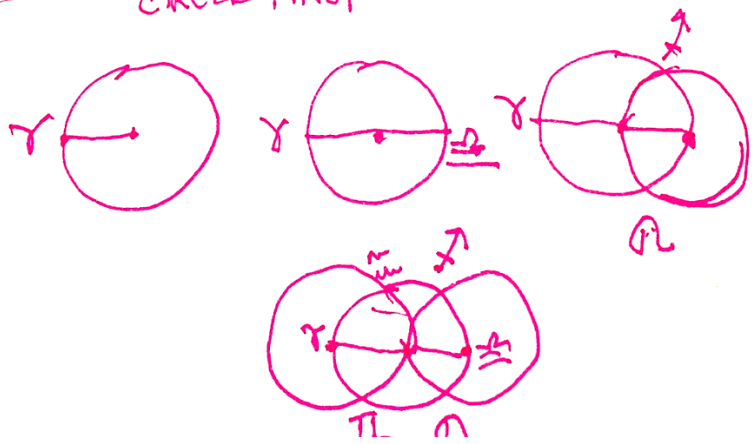

radius → circle → then aspects
