

## **Buddha was getting us ready for Buddha**

What role does this philosophy of Plotinus have to do now in the formation of the “one world philosophy” which “could not unfold earlier?” This philosophy is bringing in science and non-duality and so on—together with the ancient wisdom.

So let's remember about the Buddha. It took 2500 years for the Buddha's insight teachings to more fully unfold. Most were not ready for them. It took 2000 years for Christ's inspired transmission to fully unfold. The Buddha was not only bringing the deep insight to people: Buddha was getting humans ready for the Buddha... getting humans ready to *receive* the deep inspired transmission of the Buddha... getting people ready for the unfoldment of the deeper teachings of the Buddha. We could ask: why weren't they ready already!? But that was part of the Buddha's role-- to help to mature, ripen and unfold people so people would be ready and be ripe to hear the deeper inspired nature of the Buddha's teachings. Same with Christ. And the same with Plotinus.

And: the same with PB. So enjoy The Notebooks. And don't worry that we don't fully “get” them... they are getting us ready to get them.
