

Dear Friends:

Plan for Tuesday 25 June. We will integrate the cosmology theory with the Natal chart to show that there's a meaning and a purpose to this unit of life that is going on life to life.

- a. **Double nature of Overself** or Soul... as indivisible and divisible...
- b. How the ray of soul, unit soul... **unit of life, 26.4.257 and 25.2.204** (PB terms) goes through a journey of unfolding, evolving, grow up and wake up, in relation to the vast World-idea or "matrix" of Cosmos. As Anthony puts it: "you become wisdom"... and compassion... unique expression and alignment with the World-Idea.
- c. **What is a mandala:** some pointers... and from AD... and three contexts
- d. **Mandala: The circle, the point, the radii**, some geometry and cosmology of the beautiful symbol: especially the circle and the cross.
- e. **What are the 360 degrees?** What does Anthony mean by them, degrees as unique expressions of intelligence... spectrum of meaning in our lives...
- f. Spectrum or levels/phases of soul embodiment, and spectrum of consciousness-vibration. As Plotinus says: **ray of soul meets the organized body**.
- g. **Four fold Mandala** in metaphysical, cosmological and natal-earth setting. Four folds as hierarchy and simultaneity.
- h. **Different meanings of the four-fold** in the earth... the meaning of the four points... as four "gates" of Buddhism, from the Shamanic tradition, from Malidoma Some in the African Tradition; from Jung, ... etc! Apply this to look at our lives.

BACKGROUND:

Read/listen to Anthony: soul first comes into being-universal being or witnessing—by identifying with the whole of the 360 degrees.

Pictures for “a ray of soul and organized body.” Ray of soul “first enters the heavens” and puts on a heavenly covering... and more and more dense vehicles. Intelligence of the Stars, the Reasoning of planetary powers—transsaturnians and Saturnians—and the four “gates” of Earth... four points of the astrological cross.

Anthony correlates them with Metaphysics, with Cosmos, and then the astrological mandala.
universal manifestation is the body of god
all stars each related to one another form sidereal zodiac:
each star embodies an idea which has within it a multiplicity
those ideas are the 360: each one has multiple universal perspective

360 are the circle of the mandala... UNIVERSAL BEING ...

Before birth... we can imagine the cosmic individual... four levels of universal manifestation or vehicles... 4 circles or cross of starlight... so its spinning ... when we get born it stops

NOW we have 4 points -- 4 points on the cross **embodiment**

There is a shift from all 360 degrees to a being that experiences through 4 eyes/perspectives

4 perspectives known as cross: ... asc-left-east dsc-right-west ic-bottom mc-top-south

Each has a specific degree of zodiac—accessed/expressed as a symbolic image

These 4 points make the landscape of how you see the world before you even come to know it
These 4 perspectives bring us here: this is the being that lives the life on this planet: the organized body: an organ of experience.

The four points are exact-- dependent on birth time--every few minutes the degrees change.

living landscape ...

these 4 points are here before we are: they are the earth organism.

just these points - before any planets.

"In this fathom long body with its perceptions and mind: there is the world, the origin of the world, the cessation of the world, and the path leading to the cessation of the world." *Buddha*

4 points carries great wisdom: we can learn so much of the being just here in this space of these 4 points tethering us to earth our starting point in this lifetime

every traditions has some form or names of these 4 points

PRACTICES: check out when sun rises on your ascendent degree, or is at your midheaven, or sets on descendent degree, or midnight sun nadir.

Many ancient mathematicians were fascinated by the relation of the circle to the square. They expressed this in mathematics as the problem of "squaring the circle": which is, constructing a square with the same area as a given circle--gives rise to the idea of in co measurability: the inability of the finite to apprehend the Infinite. Perhaps this problem represented a process of bringing the parts and corners of experience into a unified vision.
