simple and profound ...**

**Simplicity the other side of

Quest is about Question:

When a person comes to their real senses, they will recognize that they have only one problem: "**How can I come into awareness of, and oneness with, my true being?**" For it is to lead to this final question that other questions and problems have staged the road of the whole life. ... *1.1.130*

→ **I Am:** Wow! The first grace. Do we appreciate it!

Tolle: “you are that awareness disguised as a person”

Human Being is being Human and Being.

Unique and universal,

What is the Being part? What is the Human part?

We live in God’s Mind “in whom we live and breathe and have our being”

→ **Second Grace: the Awakening of Faith.**

*Sage simply tells us **Yes! it is really so***

Plotinus: Eros is born of plenty and poverty.

You would not long if you didn't have a sense

you (re)turning to God.

Third Grace: Where We Meet

The first momentary discovery of this relationship constitutes a genuine religious experience, and its expansion into a final, full disclosure constitutes a philosophic one. *25.1.31*

We discover that Consciousness, the very nature of mind under all its aspects, the very essence of be-ing under the personal selfhood, is where man and God finally meet. We know that God indisputably exists, not because some religious dogma avers it but because our own experience proves it. 25.1.39
